

DELIRIOUS MAG

ISSUE 4 - SEPT/OCT 1988

EDITORIAL

Pheew... After a long struggle to publish the mag in time to be able to spread it at the PCS in London, here's finally the fourth issue of your ex-favourite mag, 'ex-favourite' I said because this issue will certainly disappoint ya dear readers... The problem concerns the mag's 'toons... I had the choice to publish DELIRIOUS MAG, featuring those lame pictures, or to not publish it at all... So y... will certainly recognize sum pics wich have already been printed in the last issues...

But I promise you that if I get enough articles for the next issue, it will feature a lot of photos, superb 'toons realized on Amiga (like the rest of the mag) by Leto II/CFR, in fact an astounding DELIRIOUS MAG, with 'exotism and erotism' just like in the past... To finish this boring EDITO I send several thanxx to all the subredactors who did a little effort this time, if it could only continue !!!

... So 'sorry again for this dirty issue...

AMIGUYS WANTED !

Yep DELIRIOUS MAG (if it continues) won't ever stay on the good old 64 ONLY, I am searching for some cool AMIGA guys, who could write some 'X-NEWS' articles, but about the AMIGA scene...

Please also notice that the last page of da mag is published on AMIGA, with Page Setter, and printed with a LASERPRINTER ! Perhaps, in a soon future, all pages will be printed like this ! <<<JAYCE>>>

**HOW TURN
THE PAGE OVER,
AT THE RISK OF
YOUR LIFE.....**

BRITISH NEWS ! (P.E)

Welcome all you radical coders, crackers, swappers & general lamers to the british section of DELIRIOUS MAG. This part tells you europeans about how we survive in today's pirate scene.

Why is it that Britain has most of the software released but there's only three main groups in England? The 3 main groups at the mo are : SCOUSE CRACKING GROUP, IKARI and ZENITH, not in that particular order. These groups usually do all the software that is realised, except ZENITH that mostly do budget software.

Nik, Just Ice, Tri-dos and the danish boys of IKARI come up with a lot of pre-releases along with some cool cracks ie BIONIC COMMANDOS.

SCOUSE CRACKING GROUP only has three members after their Amiga members left. SCG are now Weetibix, Lee and Webb. Weetibix seems to of taken the crown as best cracker in Britain maybe Europe !!

The Amiga scene is finally starting to hotten up. Some '84 freaks still think they are the future. But when you look at the quality of the '84 releases this year and compare it with last year's you can see that the '84 only has about 18 months to two years left before most of cool '84 dudes swap over to Amiga.

Even if you are a real lamer, you would still of heard of the co-operation KENT TEAM, BAMIGA SECTOR ONE and INERTIA, but now it seems that the leader Derek has sold up everything, disbanding the KENT TEAM. This then leaves the field open for the only other two groups who can crack at the mo, they are : PUBLIC ENEMY #1 and the LONE CRACKER A-HA. Seeing as I am in PE#1 I will tell you about us: we are ten members, 5 in England and 5 in Scotland. We are : Cossat (ex-DELTA FORCE), Gezza X, Terminator X, Loki, Rab (ex-NATO), Vertigo (ex-UGG), Hammy (ex-UGG), Rob (ex-DELTA FORCE), Ali (ex-LASER) and myself The Jester (ex-LASER, FUSION & IKARI).

With all these groups in Europe getting busted, we are wondering when a group will get caught here in Britain, but the main problem is that our police don't give a shit. For example when Steve of ZENITH got arrested he had packages ready to go, so did Ironfist but nothing was done about all their copy disks etc. We have an organisation called F.A.S.T (Federation Against Software Theft) who tries but fails to catch any of us. Lets hope you all come to the PCW show in sept 14-18 and meet PE #1, IKARI, SCG, ZENITH, ROUGH TRADE, NATO, PULSAR, MANAGEMENT, HOTLINE, IAN+NIC, and all the other cool guys. See ya dudes... The Jester / PUBLIC ENEMY

PCW SHOW REPORT !

Yep ! Meet the little-man-on-the-Earth (Hi Evil Eddy, Great demon in Hell's Limbo) in LONDON, and also all the executive TCOM staff for the one and only PCW SHOW ! A big report soon, if DM continues !

DUTCH NEWS (SPHINX)

First of all I wanna tell you something about my group called 'SPHINX'.

The members of SPHINX are from : some of ORION, some of DBS, some of ILLUSION, some of SCIENCE 151, and 3 new cool members, they are a follow : Side (ex-TFF), Rico & Trax (ex-U ION). So now we have 13 Dutch members & the guys in Sweden of course! SPHINX is a crack/demo group, so it's obvious that you see lots of SPHINX stuff, 'coz we have a lot of members. Anyway, enough about SPHINX for this moment. Let's continue with the Dutch newz.

- The Dutches (a cooper group, which had members from BEATLESS & CHANNEL 4 (mainly)) split up, 'coz BEATLESS left and so the others are also planning to leave.

- Already a couple of weeks ago there was the newz that a guy called 'ARJAN' was caught by the police in Holland and the newz per said that he had big connections in mainly Germany, so if you've a contact called ARJAN in Limburg/Holland, then you might see the cops soon at yer place as he gave all his addresses away to the police.

It's remarkable that this happened, 'coz till that moment the police had never arrested a 'known' guy, so perhaps they're starting to get more of us in Holland. Very strange though, 'coz at this moment they can't even control the BIG criminality.

Are the cops in Holland also gonna be like the German and Danish ones ??? I don't hope so.

- Fire Eagle is dead, 'coz they started a new cool group and it is called like this : SCOUTS (no, not SCOUSE, but SCOUTS) and I think it is a cool group, I've heard they are gonna release a lot of stuff soon.

- The Dutch group H.S.P has joined ORION a while ago, so H.S.P is now also dead. By the way, ORION are active again these days and they're still bugging SPHINX with modem shit, but of course the Americans won't drop SPHINX.

- The Terrible Two released a new demo (a cool one) and that's a sign they are still active, fortunately...

Well that's about it for my first article for this fab mag, so at last some personal greetz... HOTLINE - AXENON - TRANSCOM (especially Jayce of course) - TRIANGLE - TLI - BEASTIE - SUB-ZERO & all SHINX'ers... Hope to see you guys at Venlo ! (I wear a badge of SPHINX so you can recognize me easily) or till the next 'Dutch newz'.

signed : yours, Dragon/SPHINX

A GOOD GESTURE FOR THE FINAL ARTICLES
--- QUEST ! ---

Hey you, yes you, with this curious nose featuring red pimples, you, who's holding this so-clean paper in your dirty hands, I know you can do it, yes, you can, it's your destiny ! Even tough there has been a spectacular and unpreviused number of nu redactors, we've just won a battle, not the war ! Want this mag to continue ? It depends of you ! Remember it's free, & coasts me a lot of energy, and at the mo I'm quite disgusted of piracy... Send anything INTERESTING and you'll have done an A.G.G.F.T.F.A.Q !

<<<JAYCE at the end of time ! >>>

'RICANS STILL WANTED

Yep, it would be nice from you dear readers, if you could send the mag to your American or Canadian contacts, and ask them to write some articles concerning da new world's Amiga & C64 scene... I know, of course you can't send DELIRIOUS MAG with a modem, it will just coast you the price of a miserable stamp... Ok ? Thanxx...

The Enigma Evil Eddy

It seems that my little appearance in last month's issue caused sum people to start playing guessing-games. Jayce (Big Man in the SKD) got a lot of guesses of who I really was, of course he has sworn to never tell ANYONE until the day I want to reveal myself.

The most popular guesses of my identity were in ra-ra-ranked order :

- Jeff Smart (nooo, he has no time)
- MAD ALL/CFR (Too serious guy)
- NIK/IKARI (my English is not good enough)
- IAN/FUSION (I still live you know)
- A TRANSCOM member (I write in English !)
- Janek/JEWELS (I don't know shit about Denmark)
- Jayce himself (Allready has to write 90% of D.M)
- MR.Decibel (He likes fame too much to use an alias).

So as you see Evil Eddy remains an Enigma..

Energetic Evil Eddy

OK after last month when I talked about how to destroy your enemy, this month will be about how to get the people that love you the most and really piss them off : Your parents, they turn off the computer because it is bad for your eyes and bark at you because you promised them that you would use the computer for school and all you do is play games, they are the ones who lock u up for a month and take away all your money when the phonebill arrives.... in other words they are a pain in the ass, so here is my guide how to fight back, remember when you decide to kill them, make it look as an accident because the law hates people killing mommy and daddy, the best way to make it look as an accident is by giving them an heart-attack. You can do this in many ways, the best ways is to destroy thing wich they really care about...

YOUR MOTHER: a woman always spends a lot of time preparing dinner, complain every day a week that the food tastes bad, that it's always the same, and give her a menu for an exotic dish (library), make sure that you have a photo showing how wonderful it looks, convince your dad that 'the whole family' will enjoy this. Your mother will surely prepare this dish now, because she will appreciate you bought her the menu and she will want your dad a favour by preparing it. Now on the big day (Your mother will have worked at least two hours on the dish): say that you'll set the table, when nobody is looking unscrew the top of the salt-shakers, so that they appear closed but are as matter of fact open, so when your father wants to salt his food the top will come off and All the salt will fall on his food, thus making it uneatable, your mother will scream as she sees all her HARD destroyed, with any luck, she'll flip and then you can visit yer in a nut-house.

YOUR FATHER: what your father loves the most next his wife, your mother, is his car or his hobby, this month I will talk about his lobby, 75% of the hobby's concern sports so let assume that your father is a sporting man so the day before his sporting match/event/competition take his sport-shoes & a handfull of small rocks (really small ones) take the sole out of your father shoes (otherwise it will be to easy for him to detect your little plan.) Now take some glue (strong type) and smear it in the inside of the shoe, drop 10 to, 20 small stones in the shoe, wait for them to get stuck and then insert the sole over the rocks. This way your father will only begin to feel the pain after the match has started and he will of course not want to take a break because he's a real man, if you see that after aif an hour (when the pain gets to great) he attempts to take a break, shout

very loud so that his friends can hear it) : 'What's the matter dadare you getting old ????' he will of course want to show he is still young so he will continue to play, and so he will have painfull feet for at least two weeks.....

Evil Eddy Escapades

To round off I will answer 2 letters that Jayce got concerning me.

1) Evil Eddy,

Help me !!! I have tried your trick with the magazines(see last iss.) and I sent a pornographic magazine to my enemy, the problem is that he is very popular in school now, because all the boys read it....

What can I do ? Yours, Frenchie..

Evil Eddy replies :

DEAR Frenchy, don't worry your enemy is ready for bigger things now, he has taken advantage of the situation so now you must take advantage of him.... Get a piece of paper with the school heading (Take one of your parents got from school & cut the heading off, stick it on a blank page and photocopy it). Write on this paper in your best handwriting the following text : 'DEAR parents, Your son was caught today selling pornographic magazines in school, he will be severely punished if this happens again, please check his schoolbag every morning before he leaves for school. And then you sign with an unreadable signature, it would surprise me if you ever hear of yer enemy in the next ten years.

2) Dear Delirious Magazine, I am the mother of a 15 year old boy who enjoys computers, through a friend he got an issue of your magazine, when I was looking through it I saw a monstrous article by someone called EVIL EDDY, this writer has a very bad influence on my children and should be kicked out of your magazine and locked up.... Yours sincerely, a dutch mother.

Evil Eddy replies :

DEAR dutch mother, how do you know I'm not already locked up, in fact how do you know I'm not your son, mummy ????

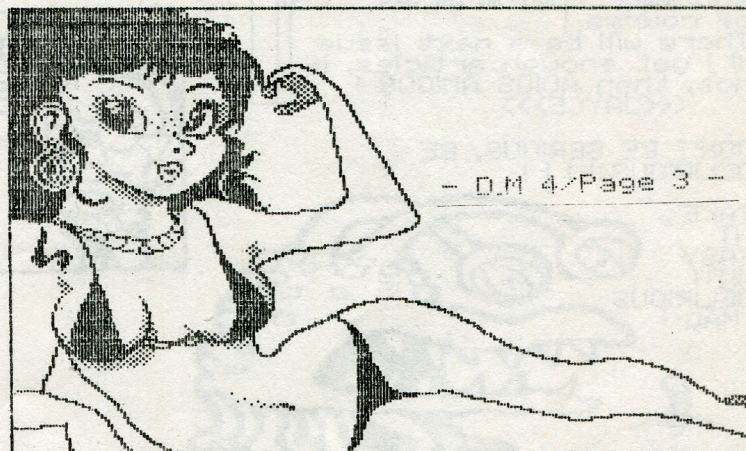

Well, thus ends another E.E.E, maybe the last one as D.M is going to stop (The future will say, Eddy, there's perahps an hope - Jayce), but I'm sure you will hear from me again....

Remember, it's good to be Evil !

.....EVIL EDDY.....

ODE TO EVIL EDDY

Yes, he really deserves more-than-well this mag wich is yours, dear readers, by sending me the (read up) coolest & thickest article ever written by a DM's redactor. So, Evil Eddy, Duke of Hell, creature of Chaos, if the mag continues, I hope you will continue your noble but hard fight against the Law forces...Thanx again, and if this issue 'came to life', this is mostly your action ! <<<JAYCE of Menilboné>>>

- D.M 4/Page 3 -

Yeahh, HE's back !!!

Who's back ?! The mega wizard of words, of course ! Alias MAD ALL ! His article's a bit special because he's written it when it was sure that DM will stop... Well now, that's no longer sure, if I receive a lot of articles, perhaps... there will another issue... Who knows ??? But I let you now discover this great piece of master !

THE RETURN OF MAD ALL ! *****

Summertime blues, the sun doesn't shine, software is slow and no Venlo parties untill september, but all is not lost because the word-wizard has come back to write a final word for D.M.
MAD ALL online : Excelsior, this is the word I like to use to start my articles or scrolltexts, it's latin for always better, and what I mean by it is that the better you work is the better your situation becomes. Unfortunately this is only a theory, the real world is different, take this magazine as an example, it is good, despite what some people say, it has a professional feel about it and has increased in quality every issue and still it had a relative success. Why ? I think if I knew the reason, Jayce would not have to make this the final issue. Yes the final issue, a shortage of volunteers or subredactors & writers have signed the death-warrant of DELIRIOUS MAG. It is a pity, even though I'm the co-editor of 'The Other Magazine' in the pirate world, I liked to read and occasionally write for this magazine, it was

not a cheap rip-off of ILLEGAL (oops advertisement), it covered the same subject but it did it differently, and this method has proven not to work with crackers, now if this magazine would have been written for bartenders, hair-dressers, bmx-freaks or surf-punks it would surely have been a hit, but it wasn't; it was written for the most ego-centric people in the world : SOFTWARE PIRATES. These people, or better : we just love to be regarded as a sort of young talented god-like creatures, we like to see our names and our work put everywhere in big colourfull letters preferably where our 'friends' can see it. Ah the friends of a pirate... Well a pirate's friend is always another pirate (sometimes a dog, wright cap Future ???) so what the pirate likes the most is to see his stuff compared to his friend's and of course ranked just a little bit higher... Yes pirates love charts. DELIRIOUS MAG did not feature any charts mainly because everyone that was anyone regarded the "ther magazine" 's charts as the official ones, so there was no need to write alternative ones... Wrooong pirates can never get enough of seeing their name in front of someone eelse's handle. DELIRIOUS MAG was build on an optimist vision of the pirate world as Jayce is one of the biggest optimist and idealist I have ever met, this is a good thing, the world needs people like this, but at the moment they are a minority and their ideas are considered as a fool's dream, a great shame because now the world has lost an idealist & we have lost a great MAGAZINE.

INTERVIEW D'UN PIRATE

Jeff Smart (TFD, TWGI)

Hi Anyone !
As usual I'm back in these few pages to give you the latest info about what's going on in the small & forgotten country people often call Belgium... And as usual very few things happened coz only a few so-called 'crackers' use to live in Europe's heart...

Let's start off...
- Hobbit of the FAIRLIGHT fame whose drawings have already deserved Megal's 'disk cover of the month' award has found a job in a very popular belgian comics magazine, whose name is 'Tintin'.
- The belgian mega-mover GIMZO is back to his first handle and the good old W.O.W. gang. I really wanna thank him 'coz, thanks to him, each month I have at least one thing to write about... In fact, since the last issue, he made his own 64 group, bought an Amiga, joined DNS, made his own Amiga group and then dropped the Amiga to come back to a new, stronger W.O.W. built up with approx. 20 members (Win, Doum, Ispace,...). So if you wanna buy an Amiga, write him !

- The new follow-up to B-ART, ARGUS (some other mega-moving kids) is now composed of more than 30 members !!! (the latest ones being THE SAINTS !). So if you want a group, I think there's always room for new members in the belgian number 4 !!! (only joking, you are nr. 3 !!!).

OK, that was it so you see, only usual stuff down there... But the unusual thing is that I'm writing this from FRANCE...

Yes, I'm here in the country of wine, cheese and TRANSCOM !!! (Well, we are human people, after all, you know... JAYCE).

I'm here in a castle (Yeah ! A real french chateau) in Bretagne, where I'm working on a game for a french software house.

The company is called UBI SOFT, and if you have never heard of it don't despair 'coz they are only planning their first 64 releases to be out on september. The game is called BAT, the graphics are made by LETO W/CFR and the music, of course, by Maniacs of Noise.

Till the next time we meet...
RAM/CFR will be back !

POLSKA EXPRESS !

Yeah, I couldn't not publish this little sketch I received dis morning directly from Poland ! Yes there are sum DM's readers in dis part of the world !!!

It would be nice if Mat.Rust was able to fly again over Moscow and could drop some DM's issue on da russian capital ! But let's stop making jokes on those dirty communists, eh ?

We all wish a long life to the well-known syndicate, 'SOLIDARNOSC' of course... So a big thank goes to Ryszard of 'Radomysl Wielki' in Poland... Hey dear readers you know I went there and it's a cool place... So, thus ends this unexpected article of DM...
<JAYCE Bond 007>

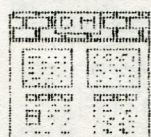

DM'S DOUBLE USE....

What can you do with your mag apart from reading it ? A lot of things, for the same cheap price... For example, a 101% sure condom... Lemme show you...

For this experiment, you need :

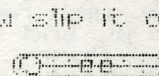

- an issue of your favourite mag.
- to have a hard-on (an erection)
- some scotch tape
- a few I.O points (not a lot is enough)

Ok now you're ready, dude...

roll the mag
Then sellotape it like this in a 'tube' form
front view : Are ya ready for da nex step ?

* Part two, install your new friend...

now slip it on. ! But that's not a condom !!!!!
I know, but at least you won't be cold next winter !

Special update for small dicks users :

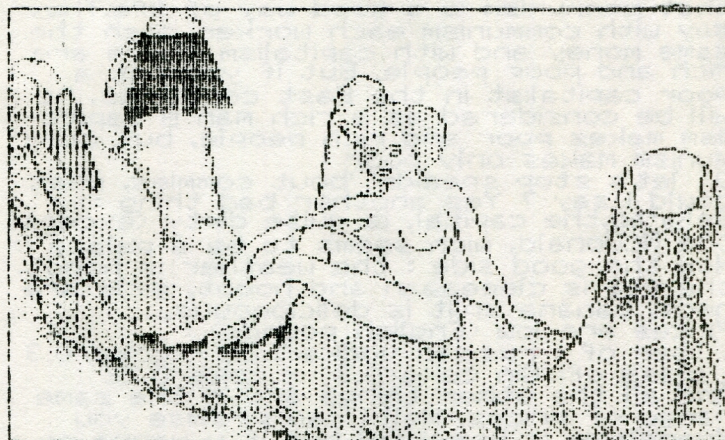

(But first a big hi to Photony/CFR). If your dick is too small and feels sad in this big DELIRIOUS MAG, don't worry, just do the same with Jeffie's ILLEGAL, wich has some smaller sheets ! That's what one could call the gesture of the Editors against A.I.O.S. but you perhaps may buy a real condom... Who knows ?

AUSTRIAN NEWS (SSD)

Well, for my first article for DM I hope it will be a good one ! From now I will constantly inform you about all what is going in good old Austria. The software companies are really lazy in the last time so I can only tell you from one of the biggest movements in the austrian cracker's history :

Let me start... In the middle of july we met to decide about a new group without Andy who acted a bit strangely in the past. So after a long search for a name, COSMOS was born. The members are SSD (64 & Amiga), BIG-BEN (64 & Amiga), ATT (64, soon Archimede), ICDN (64) and CHC (64 and Amiga). We will continue the old line of TSK-crew. So the actual ranking status in Austria looks like this : LCOSMOS 2, TAU and many other new groups like ICS, TSB, CCC and Lazer. On Amiga MFC and PROS/QUEST rules, whereas COSMOS also think of starting on Amiga (good crackers wanted !). Hey guys, no panic of selling your C64, the new coming games seem to be better and better. CU next issue !

...SSD of COSMOS...

ABOUT TOMMERUP...

22 hours of travel from my home to Tommerup, it wasn't worth while. The CP's infos were wrong, and also the train's time-stables from Odense to Tommerup; The Scoutcabin's number was also wrong. At the party's place, there was DOMINATORS, UPFRONT, DANISH GOLD and ex-JEWELS, incredible, isn't it? Except them, a lot of suckers apart FAIRLIGHT & TRIAD (whatever, TRIAD ???)... Wanna have some suckers names? Here they are: TRIANGLE, all the groups ending with -GON (except ZARGON), NETWORK...

But there have been a few good events, like the football party in the morning, I was with DOMINATORS (Waarfreak, Matrix, X-Zaw, Zoolook and Cosmo), Gollum/FLT (hey Fredrik, good at cracking, bad football player, uh uh). During the night, JCH was sleeping under a table, wich has given up when two guys sat on it, and so he (JCH) received all on his mug. Funny, isn't it? Well that's all with the party. The return happened without any problem. In Koeln, I phoned Mike/TWG to meet but he was living too far away from the railway station & da last train was leaving in about twenty minutes. To end the report, I thank Alain, (Hobbit/FLT) for having received me for the night and for the cool following day in Bruxelles (Brussel).

YUGOSLAVIA XPRESS..

If, suddenly, you wanna go in Yugoslavia, NEVER take the train. The train is always overcrowded, stops at all stations, is 1/2, ...1.1-1/2 hours late, and is really too dirty... A yugoslavian custom consists in throwing all the worn out things (food & drinks) by the train's windows. A funny thing does happen when two trains cross themselves, everybody closes his nearest window to not receive the other train's trash, launched by its passengers! Aside the trains, Yugoslavia is so cool, and her inhabitants too. At the beginning, when arrived at Kandelievo at the travel's end, I wanted to go to Dubrovnik (the well-known nice town on the Riviera, like 'Cannes' or 'Nice' on our french "cote d'Azur") but there was no trains... Only buses that makes you wait during two hours to get your ticket, and two hours more for the (awful) travel. Then no more problems, I've taken a taxi, and asked for the first 'camping' he knows, and it was at Zastavac.

Once arrived in the camping, I've meet Rada & Drako (A beautiful girl with his friendly brother) who were amazed a french guy could come in their country. Note: for most yugoslavian, their holidays take place at their home, on the coast, and for a very (very,very) few people in Roumania, Hungary or (I dunno the orthographe) Czechoslovakia. The inhabitants think that communism is a good way of life. They say with communism each worker cash the same money and with capitalism there are rich and poor people. But if you put a poor capitalist in the East countries, he will be considered as a rich man!!! Capitalism makes poor and rich people, but communism makes only poor!

OK let's stop speakin' 'bout commies, what could I say? Yes another bad thing: Belgrad, the capital, is quite dirty (except the McDonald, wich seems to be a palace!) Now the good side: the weather is hoooot, the sea is claaaaaan and hoooot, girls are niice, banana split is deliciouuus...

Prices are low (English pounds):
1 liter of: russian vodka/1.25 - coke/0.3
1 glass of: Gin coke/0.3 - coke/0.22
And all the other things are in the same range of prices. Well I can promise you Yugoslavia is beautiful but if u. wanna go there then: TAKE THE PLANE!

WHO'S COOL ? (JAYCE)

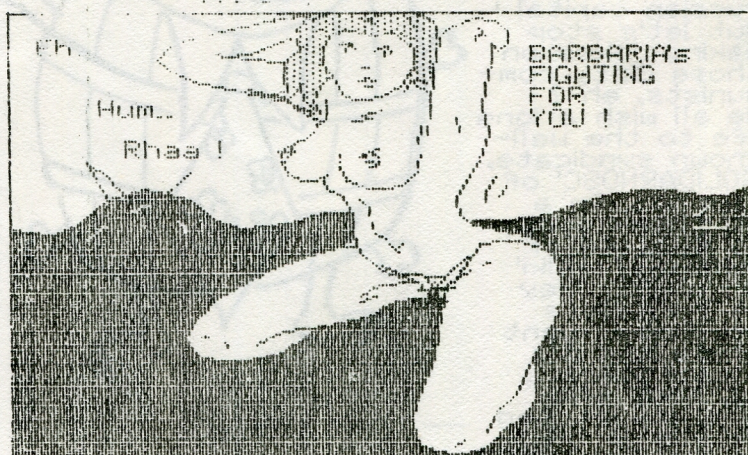

Yep, in this dangerous and sad world, it's good to know who're the rare cool people on the Earth... According to a lot of people, Jeff Smart is 'The-Coolest-Guy-on-The-Earth', and this is not far to be my own opinion, but some guys like Evil Eddy aren't OK at all, 'coz 'being cool is being bad, and I'm the worst one', he said, well in this case he's perhaps right, unless these two people are the same and only person? (Nooo, because Jeff hasn't sent me any article for this issue. Oh Jeff why are you so hard with me?)... Well that's not all: Photony/CFR also consider he's quite cool, and I must admit it's true, even though he does think he is from "DIE HERRENRASSE" (The Lord's blood) since he has entered CFR, forgetting that the only real Lord, the Megaplus, the most 'touch-my-ass', the one and only WIZARD of words, I mean MAD ALL, is certainly as cool, perhaps more than Jeff Smart himself. But to not make anybody being jealous, I will tell you who're the coolest, of course you recognized them, it's the northern TCOM'ers (In fact everybody apart me, 'the Parisian'), they have got some so nice smiles! (Hey guys don't get mad tis just a joke)... See you perhaps soon for a special 'Big heads' article, in cooperation with Leto II/CFR, but it will be a surprise, you'll see (Some troubles are expected!)

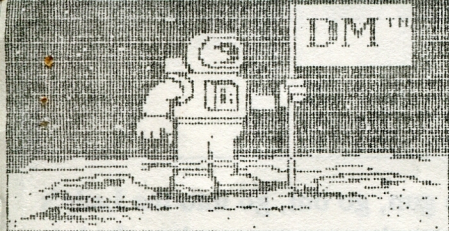

Perhaps you noticed that there isn't any cool photos in this issue, tis 'coz if I had included sum photos, the mag wouldnt have been ready for the PCS SHOW! «JAYCE»

EVIL EDDY'S GALLUP !

Ah, this cool old Evil Eddy, he's a mystery to you, isn't he? Anyway I'm angry 'coz a few TCOM'ers do think I'm E.E but that's wrong, you'll understand it in the future. Well, as the title say, this is a Gallup poll, you're asked to choose the one who could be Evil Eddy, according to you, in the following list. But send me fast your answer becoz I will draw lots for twenty of your letters, and these 20 lucky guys will win some free virgin disks, DM's previews, stickers, and a lot of other goods! And you know, if I receive a lot of answers, I will think 'They like the mag, let's continue it', so if you want the mag to live then you know what you've to do...

For you, E.E is: (only one answer)
* Jeff Smart/TRIAD * Janek/JEWELS
* Mad All/CFR * JAYCE (no D)
* NIK/IKARI * Mr.DECIBEL
* IAN/FUSION * An Alien (BLUKAWXIO)
* A TCOM member * Another guy? Who?
Well, I hope you'll be numerous to write for the first DM's Gallup poll, the results will be published in percentages in da nex issue, if there's a nex-issue-of-course, but this depends of you, dear readers! (sounds familiar, eh ??)... >> Bye! «JAYCE»

DELIRIOUS MAG CONST. KIT ! ***** (JAYCE)

If ya think DM has appeared in yer hands with an Holy Spirit's operation, you are making a big mistake ! In fact there are a lot of steps between my first ideas & the final result you've got in yer hands...

* **FIRST step : GURU MEDITATION ON THE TOP OF THE EIFFEL TOWER....**
Slowly climbing to the top of the tower, you overhang all the country, all the people down seem to be microbs, you feel you becoming a GOD (Rendez-vous nex time for the Special big heads article !) and then, only then, when I reach the NIRVANA, I start thinking about what could be the new issue of DELIRIOUS MAG... Not only thinking about my future articles, but also to the cartoons I need (well I had some troubles this time), and I also do try to find the energy for the next step...

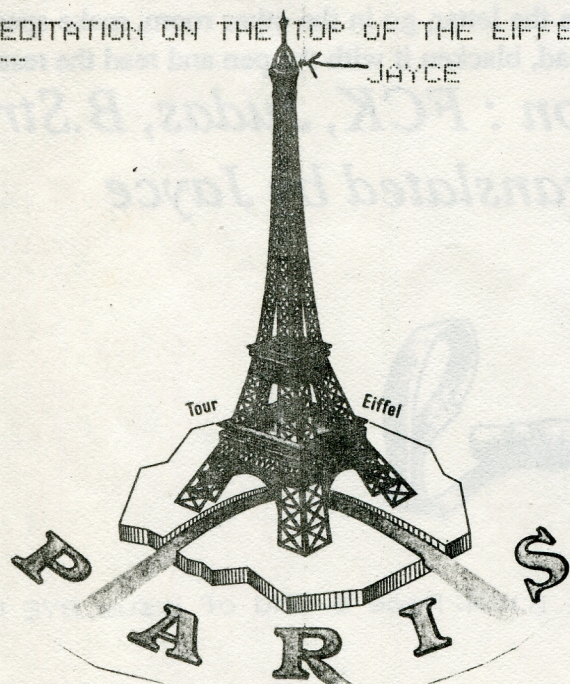

* **SECOND step : HUNT THE SUBREDACTORS !**
The SUBREDACTOR (From Latin Subredactus) is a curious animal, who makes you get MAD, so difficult to catch is he. You have to write him thousands of letters, to beg him to send his little article (not you E.E.), to phone him several times and then, if you are really lucky, you will perhaps get 3 weeks later his article, now you know why DELIRIOUS MAG is always late ! (Just joking D...

* **THIRD step : DON'T LOOSE YOUR EYES !**
When you've got ALL the long-awaited articles, you've got to spend all your nites writting all the articles, destroying this way your eyes when sitting in front of your TV, fighting & argueing with parents to not be sent to bed wth Evil Eddy could you help me ?? and of course school does totally get down during my writtingperiods ... Then you may imagine that your hard work is finished ?? Nooooo ! The worst is to come !

* **FOURTH steps : JAYCE THE ROBOT.**
Imagine my pain when I will get the 1600 sheets of this issue ! (4 sheets*400 D... I have to assemble and hook up all the 400 issues by myself ! Just ask Photony what did happen some times ago in the ESSEN--> VENLO train !

So you see making a mag is not really funny...But I'm so happy when DM's readers call me to tell me that they did enjoy the mag !

GURU MEDITATION ON THE TOP OF THE EIFFEL TOWER....

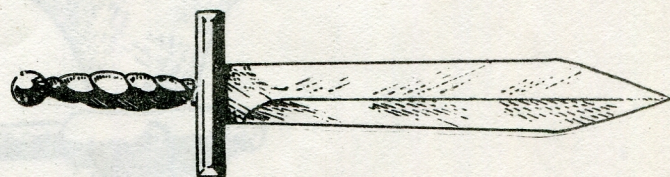

DANISH TEARS (TPD)

Hello all pirates !
As you might know Papillons is dead. And in relation to that we've released a demo called 'We are the champions' or 'we' champions/TPD' as it says on the disk. In that ya can read the history of papillons and a little comment to all the guys we know. You may also read the absolutely final greetings-list from us.
Nothing else to say, only remember us with a smile - remember us as the pride of Denmark... signed...
Lennart & Martin of ex-Papillons.
We'll never die 'cause you'll remember us !

(Title found by the Ed. I hope it's a good one for this dinogroup's epitaph...JAYCE)

THE RED TELEPHONE !

Drrriiing ! Drrriiing ! My burning telephone is yelling !
* For the first time ever a copy-party will be given in PARIS on the 29 & 30 of the nex' October.... All the French lamers will be there but the party won't really get down because TCOM & Leto II/CFR will be there, and also the only good French AMIGA groups, I mean ACKERLIGHT, RDAP and MEGAFORCE-France... A good reason for you dear (foreign) readers, is you'll be able to visit PARIS after or before the party, guided like an 'heat seeking missile' by the most parisian of all the parisians ! Phone me or write to the mag for details
* Another party is also planned but this time in Brussel/BELGIUM on the 24.09.88. CFR, ARGUS and all the Belgian groups will be there, and also some foreigners, e.g. TCOM, for exemple ! Write to CFR, ARGUS or the mag for details...
* Still writing 'bout the Belgian scene, after some troubles between RAM/CFR and Koen/ARGUS, all is getting better well that is what Koen told me...
* Yep, in the last issue of DELIRIOUS MAG, Jeff Smart was wondering where Freesty-le got the IMPOSSIBLE MISSION II's preview, then PCS 2100/BROS sent me the answer: The game was programmed by Hungarian programmers for Epyx/US Gold. BROS has an Hungarian member (from Budapest) who knows one of the programmers, so he got a preview-version very early and sent it to BROS. But it seems he hasn't given the preview only to them, also to a german lamer, who did probably sent it to FSI...
* Humm, Leto II/CFR hasn't finished working for this French software house called UBI soft, in fact 'The coolest French guy next my dog' will be back in 'his castle' in Bretagne from the 24.09.88....
* A cool battle will certainly happen on the Compunet's stand in London at the P.C.S. between all the demos writters, for exemple, TRANSCOM will release the MIGHT's sequel, originally called 'MIGHT II', & COMMANDOFRONTIER a new demo-disk, made by their new Austrian members, but also some demos from Ash+Dave, Ian+Mic, Scoop and many others...
* Seeing the P.C.S show will be filled with hundreds of hackers & crackers, I am really wondering who will come to the September's Venlo session....
OK, GAME OVER... Thanxx to the following people : PCS 2100/BROS, Koen/ARGUS, Leto II/CFR...
